### What Kind of Socialist are You?

Your Result: **Anarcho-Communist**

Anarcho-Communists are social anarchists who believe that mankind can only be truly free when both the state and private property have been abolished. They hold that property such as land and factories should be owned collectively by the commune, that the system of wage labor (as well as currency itself) should be ended entirely, and that the economy should instead be organized "from each according to his ability, to each according to his need." It would be useful to read the infamous Karl Marx (who was a communist, but not an anarchist), as well as Pietro Kropotkin and Murray Bookchin (who were both), for further information.
