**Quotes:**

"When you call yourself an Indian or a Muslim or a Christian or a European, or anything else, you are being violent. Do you see why it is violent? Because you are separating yourself from the rest of mankind. When you separate yourself by belief, by nationality, by tradition, it breeds violence. So a man who is seeking to understand violence does not belong to any country, to any religion, to any political party or partial system, he is concerned with the total understanding of mankind."  
— Jiddu Krishnamurti

**Theosophy:** "Intentional knowledge or wisdom resulting from progress in Self-awareness and/or experience of one's own Transcendental ('Divine') Nature."

**Theosophist:** "An individual who is at least willing to consider potential knowledge and/or wisdom purporting to have been derived in this special epistemological way."
